Social Media Copy

LinkedIn, Facebook, and X are great ways to promote your participation at the Texas GIS Forum. Help us spread the word by sharing the content below.

Hashtag, URL, and Sample Posts

For any conference related social media posts, please use the associated hashtag #TxGISForum. This will help us identify your message and reshare it through TxGIO's social accounts, so our followers can get a chance to see your message.

The event webpage can be found at www.geographic.texas.gov/texas-gis-forum/2026/

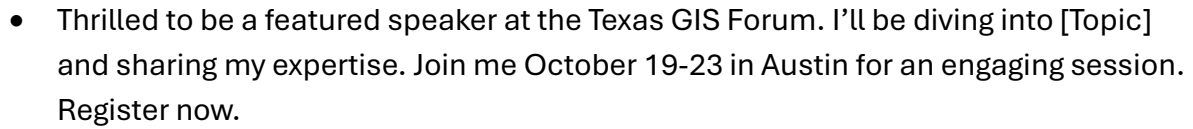

Below are a few sample social posts to help your communications team get started. Please feel free to customize these examples for your own use.

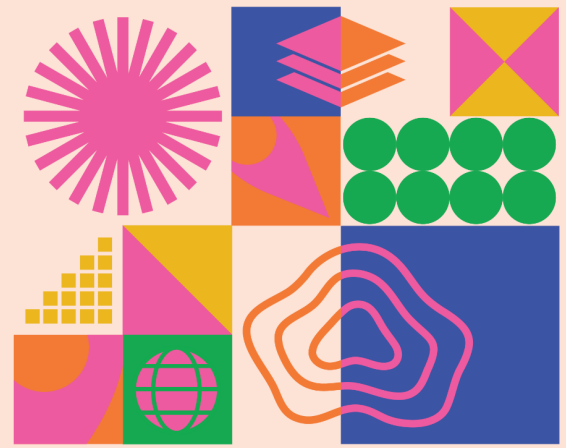

Sponsor Posts:

Best Practices

- Tag the organizer: Be sure to tag TxGIO on LinkedIn and X so we can reshare your post! See page 1 for TxGIO's social handles.
- Include media: Social posts with images get higher engagement. Use your official speaker headshot, a photo of your team, or your company logo on our Texas GIS Forum graphic templates.
- Engage early: If someone comments on your post, reply quickly to boost the algorithm and start networking before the event begins.
